

soft starter for asynchronous motor, Altistart 22, control 230V, 230 to 440V, 55 to 110kW

ATS22C21Q

# Main

Range Of Product	Altistart 22	
Product Or Component Type	Soft starter	
Product Destination	Asynchronous motors	
Product Specific Application	Pumps and fans	
Component Name	ATS22	
Network Number Of Phases	3 phases	
[Us] Rated Supply Voltage	230440 V - 1510 %	
Motor Power Kw	110 kW 400 V 110 kW 440 V 55 kW 230 V	
Factory Setting Current	195 A	
Power Dissipation In W	117 W for standard applications	
Utilisation Category	AC-53A	
Type Of Start	Start with torque control (current limited to 3.5 ln)	
Icl Starter Rating	210 A for connection in the motor supply line for standard applications	
Ip Degree Of Protection	IP00	

# Complementary

Assembly Style	With heat sink
Function Available	Internal bypass
Supply Voltage Limits	195484 V
Supply Frequency	5060 Hz - 1010 %
Network Frequency	4566 Hz
Device Connection	To the motor delta terminals In the motor supply line
[Uc] Control Circuit Voltage	230 V - 1510 % 50/60 Hz
Control Circuit Consumption	20 W
Discrete Output Number	2
Discrete Output Type	Relay outputs R1 230 V running, alarm, trip, stopped, not stopped, starting, ready C/O Relay outputs R2 230 V running, alarm, trip, stopped, not stopped, starting, ready C/O
Minimum Switching Current	100 mA at 12 V DC (relay outputs)

Package 1 Height	46.000 cm
Package 1 Width	40.000 cm
Package 1 Length	60.000 cm
Package 1 Weight	24.500 kg

# **Contractual warranty**

Warranty 18 months

# Sustainability

**Green Premium<sup>TM</sup> label** is Schneider Electric's commitment to delivering products with best-inclass environmental performance. Green Premium promises compliance with the latest regulations, transparency on environmental impacts, as well as circular and low-CO<sub>2</sub> products.

**Guide to assessing product sustainability** is a white paper that clarifies global eco-label standards and how to interpret environmental declarations.

## **Dimensions**

Mounting and Clearance

#### **Precautions**

#### Standards

The Altistart 22 soft starter is compliant with pollution Degree 2 as defined in NEMA ICS1-1 or IEC 60664-1. For environment pollution degree 3, install the Altistart 22 soft starter inside a cabinet type 12 or IP54.

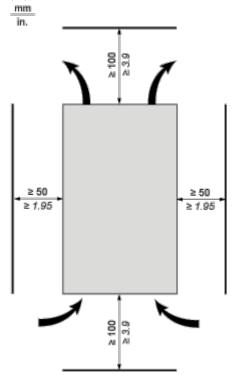

# HAZARD OF ELECTRIC SHOCK, EXPLOSION, OR ARC FLASH

ATS22 soft starters are open devices and must be mounted in a suitable enclosure.

Failure to follow these instructions will result in death or serious injury.

#### **Air Circulation**

Leave sufficient free space to help the air required for cooling purposes to circulate from the bottom to the top of the unit.

#### Overheating

To avoid the soft starter to overheat, respect the following recommendations:

- $_{\bullet}$  Mount the Altistart 22 Soft Starter within ± 10° of vertical.
- Do not locate the Altistart 22 Soft Starter near heat radiating elements.
- Electrical current through the Altistart 22 Soft Starter will result in heat losses that must be dissipated into the
  ambient air immediately surrounding the soft starter. To help prevent a thermal fault, provide sufficient
  enclosure cooling and/or ventilation to limit the ambient temperature around the soft starter.
- If several soft starters are installed in a control panel, arrange them in a row. Do not stack soft starters. Heat
  generated from the bottom soft starter can adversely affect the ambient temperature around the top soft
  starter.

## Connection in the motor delta winding in series with each winding

## Wiring

ATS22 soft starters connected to motors with the delta connections can be inserted in series in the motor windings. The following wiring requieres particular attention. It is documented in the Altistart 22 Soft start - soft stop unit user manual. Please contact Schneider Electric commercial organisation for further informations.

#### Example

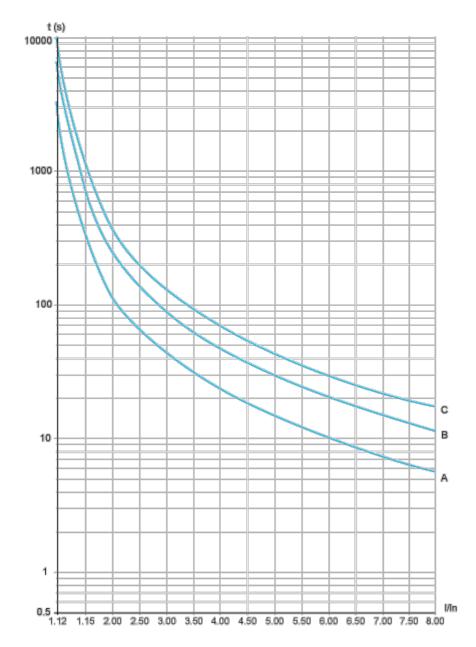

A 400 V - 110 kW motor with a line current of 195 A (nominal current for the delta connection). The current in each winding is equal to 195/1.5 or 130 A. The rating is determined by selecting the soft starter with a permanent nominal current (ICL) just above this current.
