

# medium voltage variable speed drive ATV1200 - 6 kV - 1560 kVA

ATV1200A15606060

# Main

| Range Of Product             | Altivar 1200  |
|------------------------------|---|
| Product Or Component Type    | Medium voltage variable speed drive                 |
| Device Short Name            | ATV1200   |
| Product Destination          | Asynchronous motors Synchronous motors              |
| Product Specific Application | Fan, pump, compressor, conveyor                     |
| Assembly Style               | In floor-standing enclosure with separate air flows |

# Complementary

| Product Composition               | 2 x plinth  |
|-----------------------------------|---|
|                                   | Phase-shifting transformer                          |
|                                   | Medium voltage arrestors                            |
|                                   | Cooling fans  |
|                                   | Human machine interface                             |
|                                   |   |
|                                   | 15 x power cells                                    |
| Emc Filter                        | Integrated  |
| Network Number Of Phases          | 3 phases  |
| Input Type                        | 30 pulse diode rectifier bridge                     |
| [Us] Rated Supply Voltage         | 6 kV +/- 10 %                                       |
| Supply Voltage Limits             | 29703630 V  |
| [Uc] Control Circuit Voltage      | 220 V   |
| Motor Power Kw                    | 1304 kW   |
| Line Current                      | 150 A   |
| Drive Efficiency With Transformer | 96 % (standard efficiency)                          |
| (Including Fan Power)             | 96.5 % (high efficiency)                            |
| Total Losses At 100 % Load        | 46 kW (high efficiency)                             |
| Including Fan Power               | 52 kW (standard efficiency)                         |
|                                   | 52 kW (standard eniciency)                          |
| Apparent Power                    | 1560 kVA  |
| Prospective Line Isc              | 31.5 kA for 150 ms                                  |
| Overload Withstand                | 1.2 In, standard overload, 60 s                     |
|                                   | 1.5 In, standard overload, 3 s                      |
|                                   | 1.5 In, high overload, 60 s                         |
|                                   | 1.85 In, high overload, 3 s                         |
|                                   | 1.00 m, mgm ovomoda, o o                            |
| Continuous Output Current         | 150 A (standard overload)                           |
|                                   | 120 A (high overload)                               |
| Maximum Transient Current         | 180 A for 60 s                                      |
| Speed Drive Output Frequency      | 0.5120 Hz voltage/frequency ratio (V/f)             |
|                                   | 0.570 Hz vector control with/without speed feedback |
|                                   |   |

| Nominal Switching Frequency           | 600 Hz   |
|---------------------------------------|--|
| Speed Range                           | 20100  |
| Asynchronous Motor Control<br>Profile | Voltage/frequency ratio (V/f) Sensorless flux vector control Closed-loop control with encoder Vector control with sensor, optional   |
| Synchronous Motor Control<br>Profile  | Closed-loop control with encoder<br>Voltage/frequency ratio (V/f)  |
| Overvoltage Category                  | II conforming to EN/IEC 61800-5-1  |
| Output Voltage                        | <= power supply voltage  |
| Isolation                             | Electrical between power and control   |
| Electrical Connection                 | Bar - screw type M10, clamping capacity: $6 \times 40 \text{ mm}^2$ (L1/R, L2/S, L3/T) entry from the bottom or from the top   |
| Supply                                | External supply for control at 220 V AC, 3 kVA Internal supply for cooling fan at 380 V AC External supply for control at 220 V AC/DC (optional) External supply for cooling fan at 380 V AC (optional)  |
| Analogue Input Number                 | 4  |
| Analogue Input Type                   | software-configurable current: 020 mA/420 mA, 24 V max, impedance: 250 Ohm   |
| Analogue Output Number                | 2<br>4 (optional)  |
| Analogue Output Type                  | software-configurable current: 020 mA/420 mA DC, impedance: 250 Ohm  |
| Discrete Output Number                | 10<br>14 (optional)  |
| Discrete Input Number                 | 6<br>10 (optional)   |
| Acceleration And Deceleration Ramps   | Linear from 03200 s  |
| Protection Type                       | Ground fault protection: drive   |
| Dielectric Strength                   | 20 kV AC between earth and power terminals   |
| Communication Port Protocol           | Human machine interface: Modbus with 2-wire RS485(1) - SUB-D 9 Human machine interface: Modbus TCP with (1) - RJ45 Human machine interface: EtherNet/IP with (1) - RJ45 Human machine interface: Profibus with (1) - SUB-D 9 Human machine interface: DeviceNet with (1) - SUB-D 9 |
| Operating Position                    | Vertical +/- 10 degree   |
| Colour Of Enclosure                   | Grey (RAL 7032)  |
| Width                                 | 3960 mm (high efficiency)<br>3660 mm (standard efficiency)   |
| Depth                                 | 1600 mm (high efficiency)<br>1500 mm (standard efficiency)   |
| Height                                | 2820 mm standard efficiency<br>2820 mm high efficiency   |
| Net Weight                            | 5300 kg (standard efficiency)<br>6000 kg (high efficiency)   |
| Environment                           |  |
| Ip Degree Of Protection               | IP41<br>IP42<br>IP31   |

| Standards                             | EN/IEC 60204-11<br>EN/IEC 60529<br>EN/IEC 61800-3<br>EN/IEC 61800-4<br>EN/IEC 61800-5-1 |
|---------------------------------------|---|
| Marking                               | CE  |
| Pollution Degree                      | 2 conforming to EN/IEC 61800-5-1  |
| Noise Level                           | 80 dB   |
| Vibration Resistance                  | 4.9 m/s² (f= 1050 Hz)   |
| Relative Humidity                     | 090 %<br>095 % optional   |
| Ambient Air Temperature For Operation | 040 °C<br>4050 °C (with current derating of 2 % per °C)                                 |
| Ambient Air Temperature For Storage   | -1060 °C  |
| Volume Of Cooling Air                 | 29900 m3/h (standard efficiency)<br>33200 m3/h (high efficiency)                        |
| Type Of Cooling                       | Forced convection   |
| Operating Altitude                    | <= 1000 m without derating<br>10002000 m with current derating 0.6 % per 100 m          |
