#### Performance Curves

#### IP 23 Floor-Standing Enclosure with Separate Air Flows

#### **Derating Curves**

The derating curves for the drive nominal current (In) are dependent on the temperature and switching frequency. For intermediate temperatures, interpolate between 2 curves.

NOTE: The drive will reduce the switching frequency automatically in the event of excessive temperature rise.

#### X Switching frequency (kHz)

NOTE: The temperatures shown correspond to the temperature of the air entering the enclosure.
