

### Main

Range	EcoStruxure Building Expert
Product name	SE7000 Series
Device short name	SE7200
Product or component type	Zone controller
PIR cover	With cover
Sensor type	10 kOhm T2 NTC thermistor measurement range: +/- 0.5 °C

### Complementary

Device application	Zone thermostat
Network frequency	50 Hz 60 Hz
Range compatibility	EcoStruxure Building Expert EnOcean MPM MPM-GW gateway EcoStruxure Building Expert EnOcean MPM MPM-VS flow sensor EcoStruxure Building Expert EnOcean MPM MPM-VA flow sensor EcoStruxure Building Expert EnOcean MPM MPM-UN controller
Communication port protocol	Zigbee Pro
Number of devices	50 ZigBee maximum
Function available	Economiser for not included Humidity control for not included Scheduling for not included
Measurement accuracy	+/- 0.5 °C temperature
Discrete input type	2 discrete input
Input voltage	10...30 V AC
Number of outputs	2
Output voltage	0...10 V DC <= 5 mA 30 V AC
Width	87 mm
Depth	38 mm
Height	125 mm
Product weight	340 g

### Environment

Relative humidity	0...95 %
-------------------	----------

---

Ambient air temperature for operation 0...50 °C

---
