

Mounting Rail Orientation

Left Hand Rail

Right Hand Rail

Our mounting rails are labeled either LEFT HAND or RIGHT HAND.

The rails are oriented as a person is looking at them when standing either in front of or behind the cabinet, so the left and right hand rails wind up at opposite corners of the cabinet.

- If you're standing in **FRONT** of the cabinet the Left Hand Rail is on your left, and the Right Hand Rail is on your right.
- If you're standing in the **REAR** of the cabinet the Left Hand Rail is on your left, and the Right Hand Rail is on your right.
